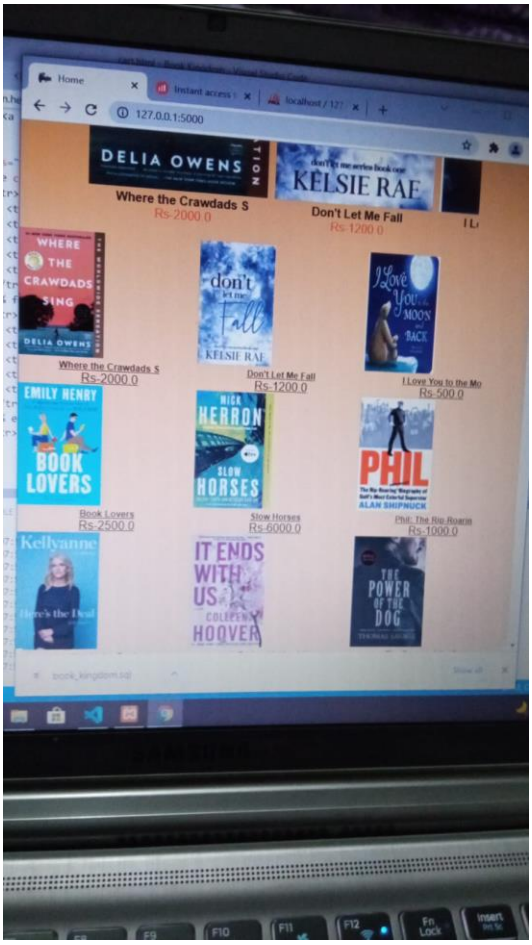
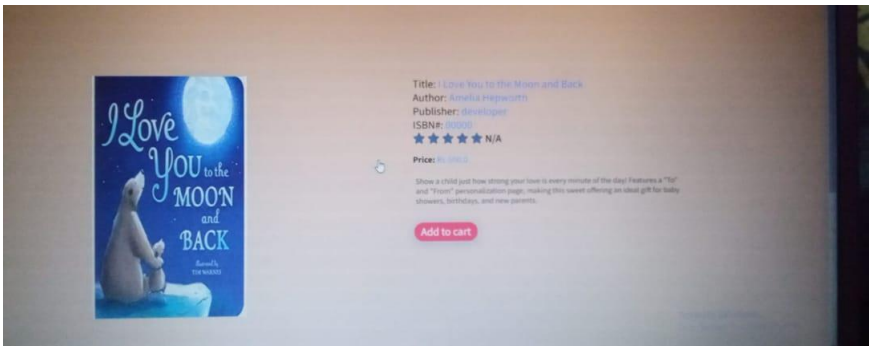
Book kingdom

Things need to be fix (mandatory)

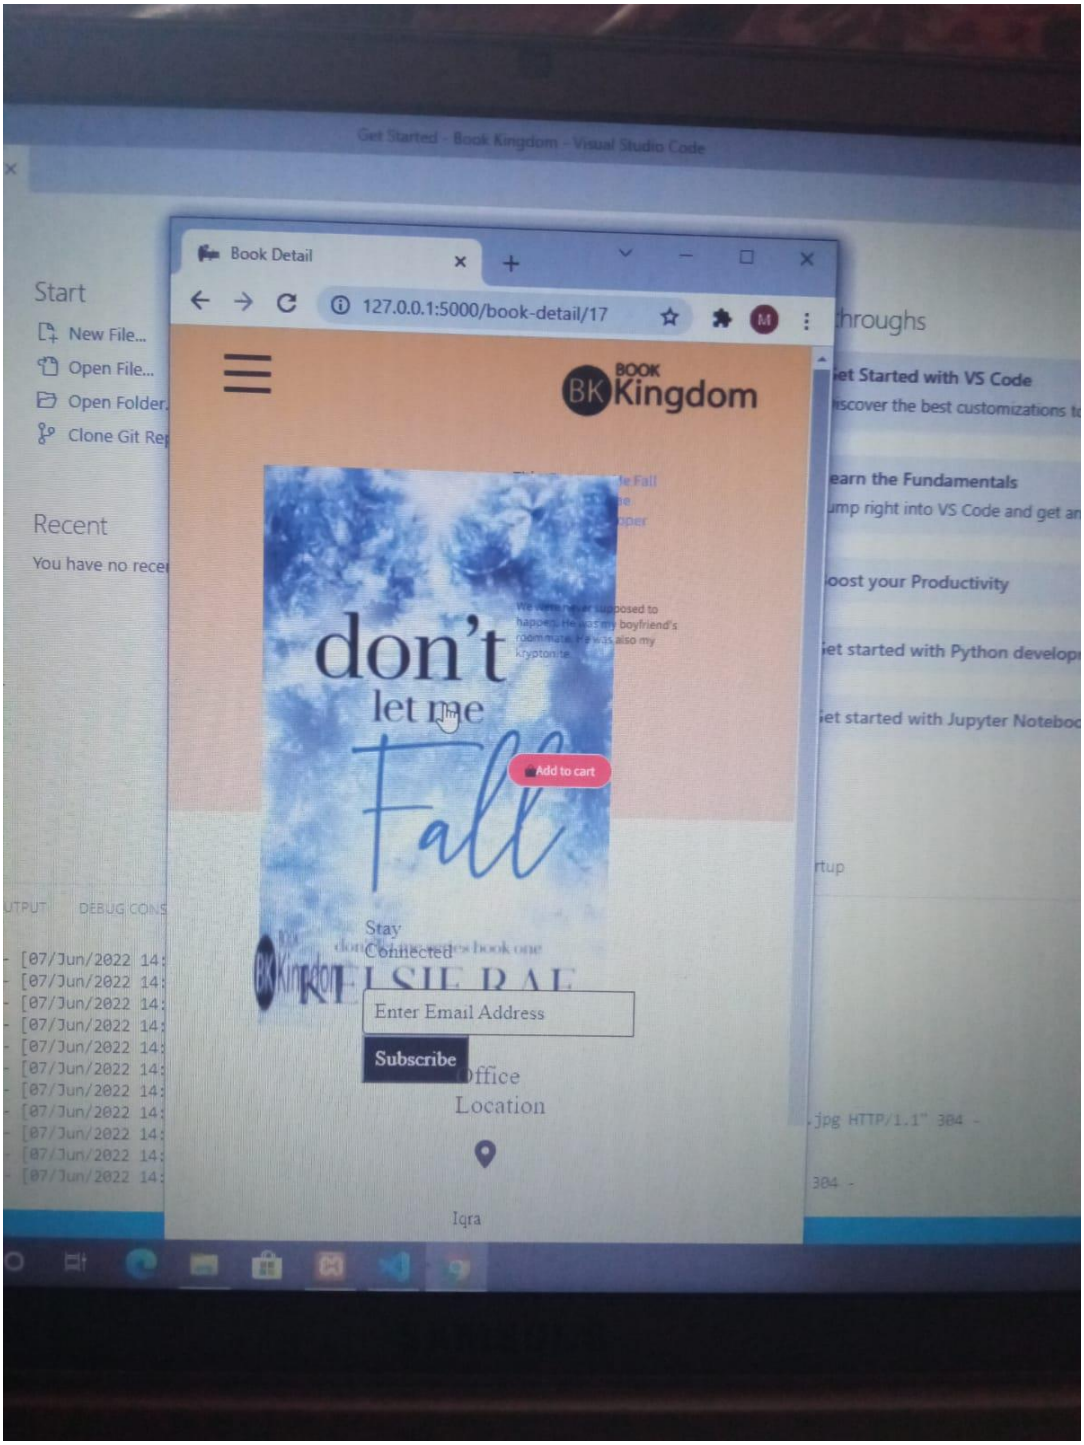
1} mobile view gui need to fix



2) book images is too far from details its need to be near the details, fix it

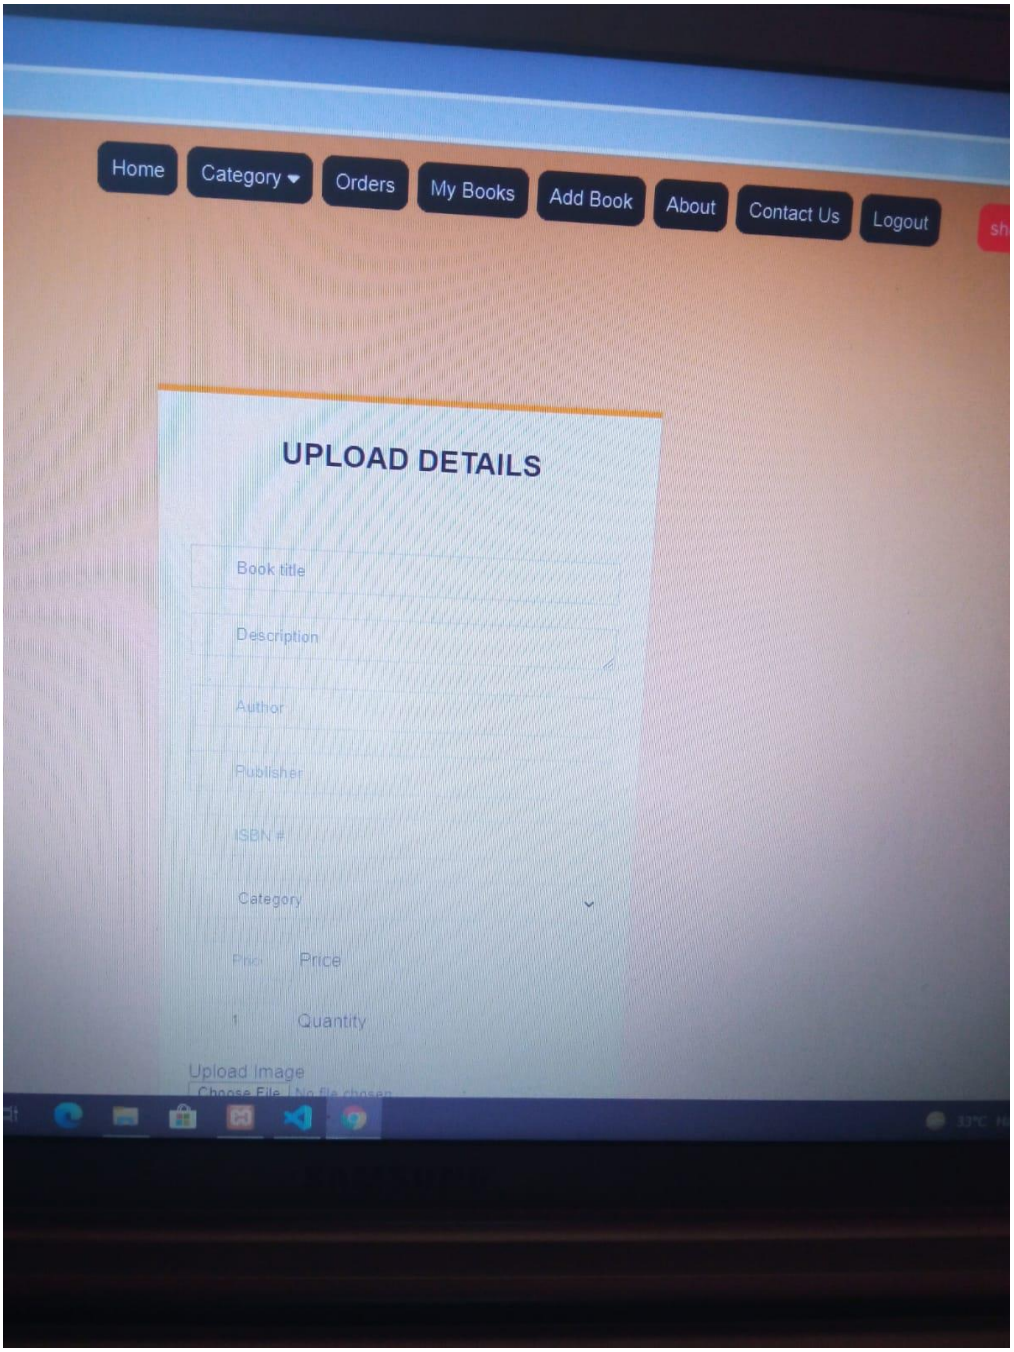


3) gui need to fix

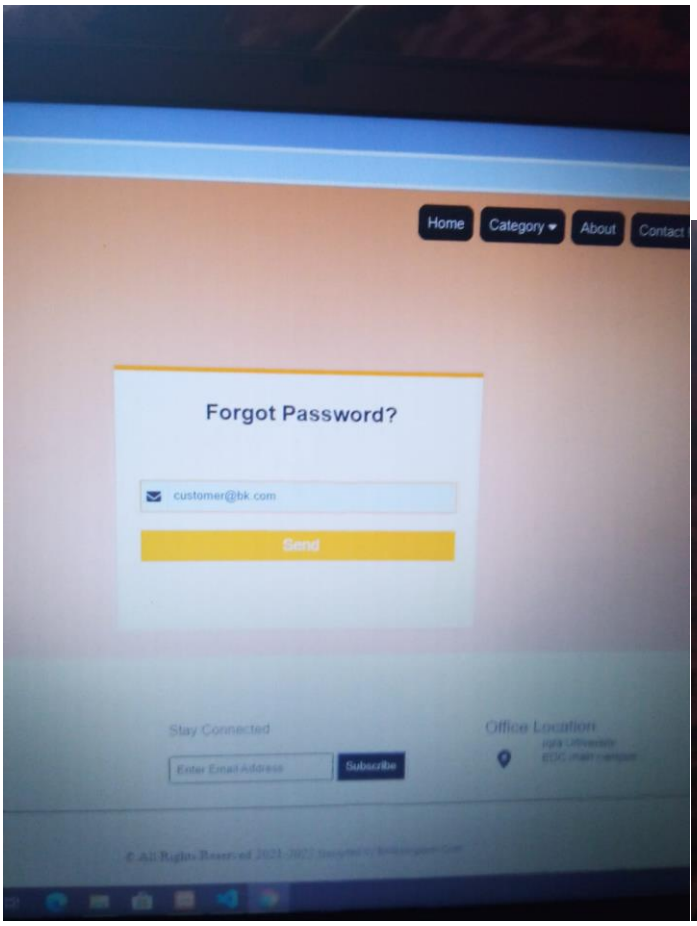


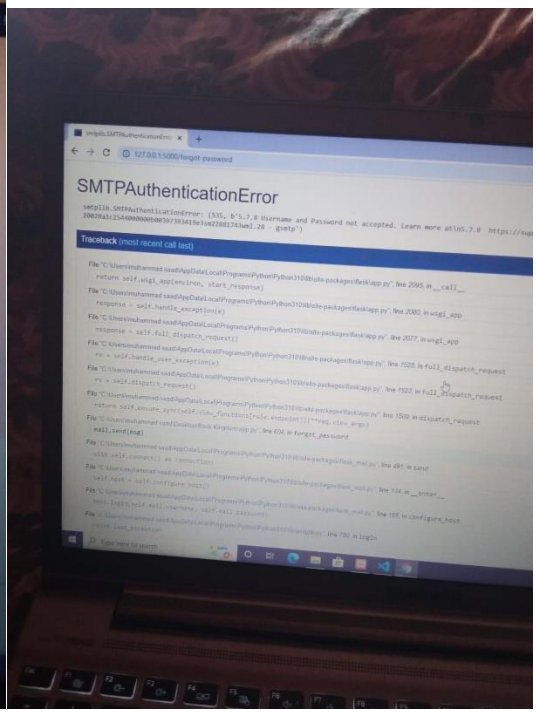
4) customer should see shopkeeper details when click on book so

add four fields, shopkeeper phone no,address,shop location, discount



5) forgot password not work when click on it this screen a disappears, fix it



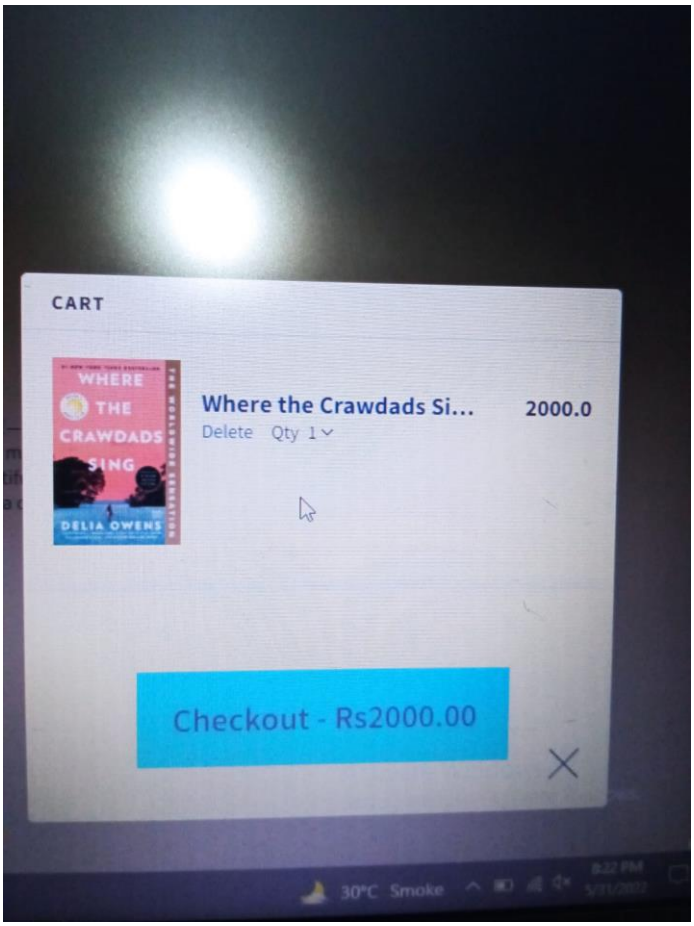


6] add delivery method in cart

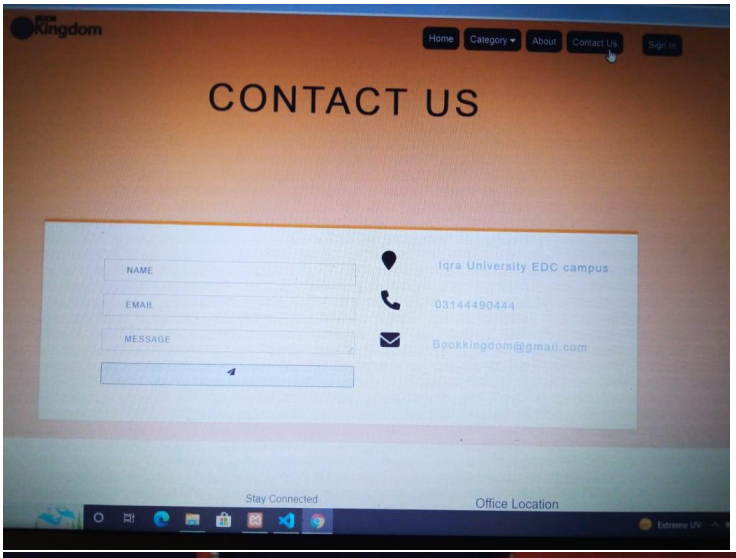
Pick up

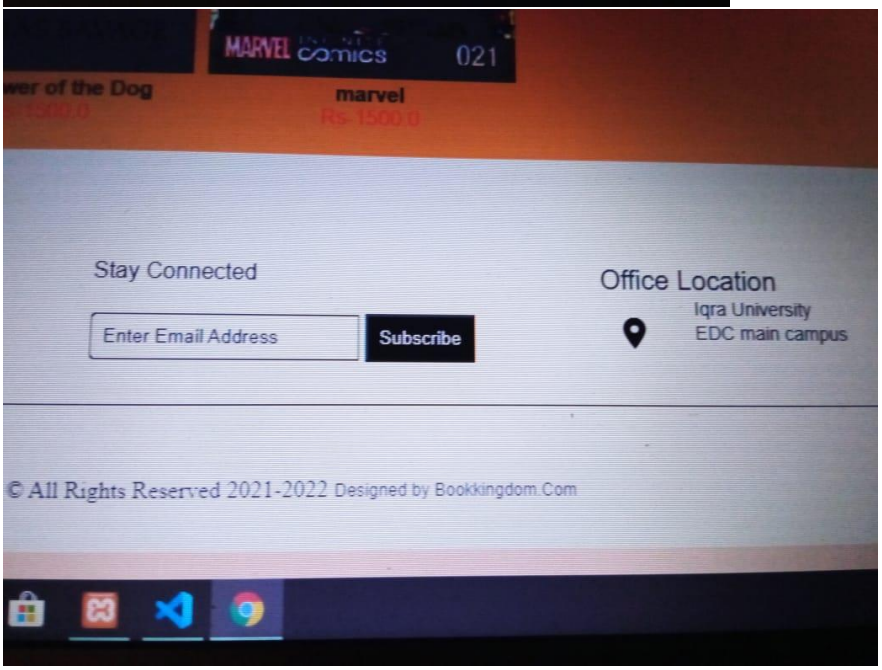
Deliver set price 200 pkr

If customer select deliver then 200 pkr will add on cart.



7) subscribe and contact us button nor working fix it





8) filter will be implemented in website and application both that is missing so, implement the filter.

Listen and filter m book categories hoge user for example comics ke books dekhna chata h comics select kre ga comics ke all books a Jaye ge or secondary price hoga low to high,high to low just

Note: Database same hoga for both application or website to application m website Ka database use krye ga Jo books website ma upload h same application ma visible or upload hone chaye
